

DR. ELLISON'S
Air Medicator and Injector,
For the Treatment of
Catarrhal Affections, Bronchitis,
Hay Fever, Asthma, Diphtheria,
Croup and Lung Troubles.

Dr. W. L. Ellison,
ELECTROPATHIST,
Office, Commercial Block.

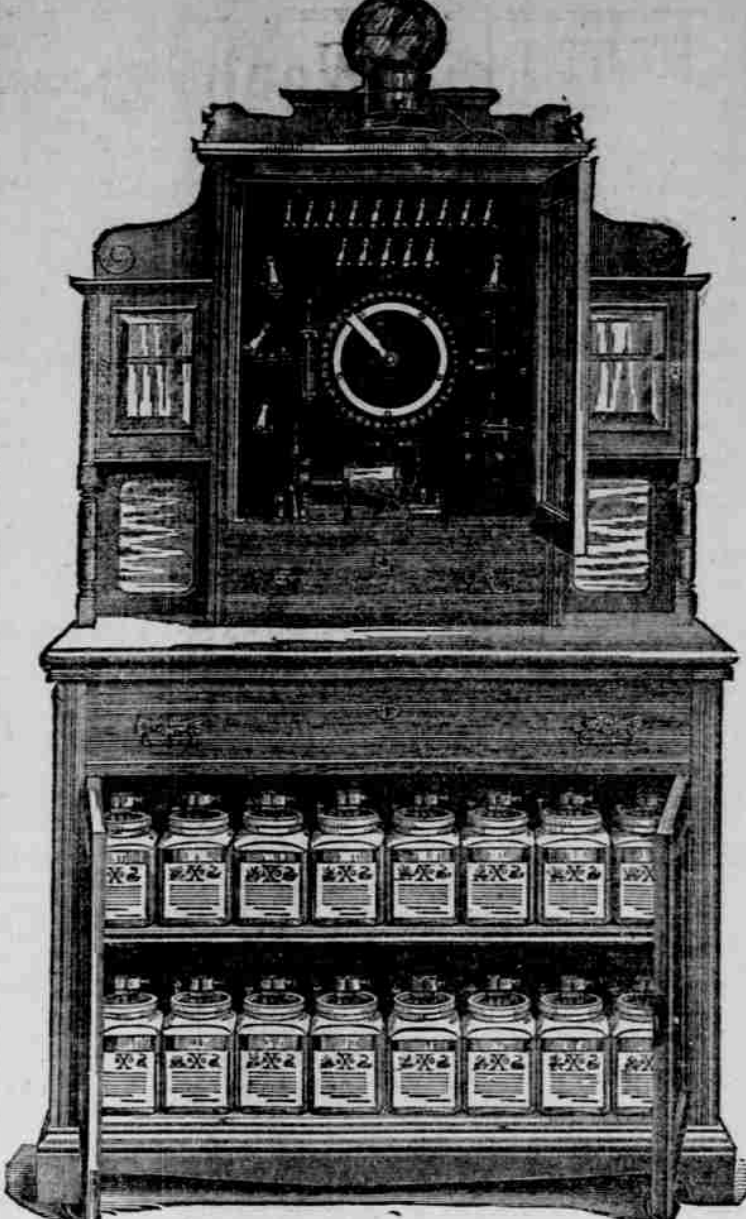

The Doctor is permanently located in Salt Lake city, making a specialty of Electrical Treatment by the different modifications of Electricity, treating all forms of Chronic and Nervous Diseases.

Paralysis,
Tumors, Piles,
Rheumatism,
Facial Blemishes,
Etc., Etc.

TESTIMONIALS

From the best citizens of Salt Lake testify as to the efficacy of the treatment of the above.

All apparatus used is of the latest and best known to Electrical Science.

The Battery used by Dr. Ellison.

The Chair used by Dr. Ellison.

FINANCE AND MINING

Lead Advances Nobly, But Silver Shows a Decline.

BIG ORE AND BULLION OUTPUT

Trade in the East and at Home—News from the Great Mining Camps of Utah.

Interrupted by the election excitement as it was, trade in Salt Lake during the week just closed was very fair; indeed, when reports from other sections of the country are taken into consideration, the showing made is little less than phenomenal.

Collections are reported very slow. The first of the month came on Saturday, the following Monday found the city in the throes of an election excitement, and it was not until late in the week that collectors were sent out.

In New York, according to the latest mail advices, business continues dragging and dull. The stock market continues greatly depressed, and false reports of failures have had something to do with the decline, some of the strongest houses on the street having been assailed. The earnings of railroads are good, and their controversies appear less serious in effect, but the companies are poor, and many of them forced to economize in purchases, although an enormous movement of crops has begun. In commercial circles there seems to be a very general and growing confidence that the business of the fall will be large and profitable, and some improvement is seen, but not enough as yet to justify sanguine views.

Trade at the south is peculiarly depressed because there is too much cotton. With several hundred thousand bales of last year's crop left over in the world's markets, and with competitor judges predicting another crop even larger than that of 1890, it is no wonder that prices are low, and producers scarcely get enough to pay for raising and picking. Hence country merchants do not buy freely, and the prospect of a great yield, which at other times might be helpful, tends to produce stagnation. Again, in parts of the west where crops failed last year, trade has not yet recovered from the great depression resulting, and as long as the corn crop is in doubt, complete recovery is not to be expected. In several states legislation hostile to capital causes much disturbance. Further, the collapse of real estate speculation in many parts of the west and south has brought severe losses and embarrassment to many.

At the east, monetary uncertainties have a powerful influence. European difficulties do not pass as quickly or fully as was expected, and now serious financial trouble is apprehended in Russia, because of failure of crops, which will only help this country in the end. There is growing doubt whether the movement of crops here will not cause a temporary strain greater than eastern money markets can meet; but if the grain can be sold, the gold will come. Money is close at Buffalo and Cleveland, in active demand at Chicago, Cincinnati, and Detroit, at 7 to 8 per cent. at St. Louis, in good supply for legitimate business at Milwaukee, close at Omaha, Nashville and Atlanta, tight at Jacksonville, but easier at Savannah, and in fair supply at New Orleans.

Business at Boston has further improved, and wool is quite active, sales reaching 2,210,000 pounds. More activity appears in woolen goods and a better demand for boots and shoes, while leather is quite steady. Hides are dull and domestic lower at the west. Philadelphia notes more frequent orders for wool and woolsens, and improvement in the tobacco trade, but iron is very weak, and while money is freely loaned on call, time loans are almost impossible to make. At Hartford and Buffalo trade is quiet, but the demand for lumber improves; at Pittsburg business is unchanged and rather slow; at Cleveland fairly good for the season, and at Cincinnati somewhat more active. Chicago reports receipts of wheat seven times last year's, of rye, cured meats, lard and wool double last year's, of dressed beef a third larger, with some increase in cheese and butter. Dry goods sales are slightly larger and good orders are seen for clothing and shoes. At Omaha trade is fair, and at Milwaukee satisfactory, and increasing activity is noted at St. Paul. Throughout the northwest the prospect of crops is exceedingly good, but at Kansas City wet weather is with harvesting. The distribu-

tion of goods is on a larger scale at St. Louis, and at southern points business is dull, or only fair, though curiously improved at one or two localities because of injury to cotton by heavy rains.

Lead and Silver.
Lead has shown a most decided upward tendency during the week. Opening at \$4.30 last Monday, it soon jumped to \$4.50, receded to \$4.45, and closed at that figure last evening.
Silver has not been so buoyant, showing a downward tendency. It opened on Monday at \$1.00, rose to \$1.01, fell to \$1.00, then to 99, closing at that figure last evening.

The Produce Market.
E. E. Rich says: Very little is being done in wheat. Millers are buying very lightly, and most of the old stock will now be carried over to mix with the new. Corn is still on the decline, and if the weather continues favorable for the next two weeks in the eastern states, crops will be assured, when there will be another fall in prices. The demand for oats has picked up some, and it is not believed there is a sufficient stock on hand to carry the trade over until the new crop arrives. Last year's stock of hay is nearly all unloaded, and the new crop is coming in freely. The potato market is in excellent condition, a large number of teams arriving daily. Some few cars have already been shipped out of the territory, and the crop shows up excellently.

A Lucky Find.
A report comes to us that the railroad contractors, while excavating a cut east of Homansville, struck ore which assays \$1,500 per ton. This will be good news to our friends, Captain Bridges, who owns two claims close to the place where the rich ore was struck.—Chief.

Manganese and Lead.
Frank Miller has returned from Indian Springs and Six Mile Springs, and brought from the latter place some rich manganese and lead croppings. He says it is a very rich mineral region, the veins being in contact between blue quartzite and porphyry and slate. Considerable development will be done there this fall.—Chief.

Business Failures.
The business failures occurring throughout the country during the last seven days, as reported to R. G. Dun & Co., number, for the United States, 229, and for Canada, 18, or a total of 247, as compared with a total of 254 last week, and 274 the week previous to the last. For the corresponding week of last year the figures were 189, representing 107 failures in the United States, and 22 in the Dominion of Canada.

At the Banks.
The ore and bullion shipments made by the various banks of the city for the week ending August 8, 1891, amounted to \$165,688.57, as compared with \$188,470.98 for the week previous. They were reported as follows:

By McCracken & Co.	\$15,000.00
Silver and lead ores	\$13,500.00
Homansville bullion	\$1,500.00
Total	\$29,900.00
By Wells, Fargo & Co.	\$26,521.03
Ore	\$3,112.10
Total	\$29,633.13
By T. R. Jones & Co.	\$20,700.00
Gold bars	\$19,000.00
Lead	4,700.00
Total	\$43,700.00
By Union National Bank	\$19,906.47
Alloy bullion	\$16,628.57
Total shipments for the week	\$165,688.57

NEWS FROM THE MINES

Mr. Hanner reports the week as a very fair one, all the old camps being heard from. There were also several smaller shipments from outside properties.

From Tintic.
The Untine. The Untine was a shipper.
Eureka Hill. The output is now about 100 tons per day.

The Mammoth.
The Chief is the authority for the statement that the Mammoth will resume shipments in a very short time.

The Godiva.
The new strike in the Godiva is turning out well. The vein is now about four feet wide and assays about 45 per cent. lead, 40 ounces silver and \$2 in gold across the face of the vein.—Chief.

South Swansea.
The shaft is down eighty-six feet, thirty-six feet of which is in ore.

The Silver Moon.
A whim is being erected.

Bullion-Beck.
A wonderful body of high grade ore is

being stoped out on the 400-foot level of the Beck. This is truly a wonderful mine as far as development goes. From the surface to the 400-foot level immense bodies of ore have been uncovered.—Chief.

Centennial-Eureka.
Rich shipments continue.
The Lancaster.
Reports are to the effect that very rich ore is being taken out.

The Caroline.
There was the usual output.

The Scotia.
The Scotia, in West Tintic, after a long period of idleness, is being worked under a lease and bond by Walker & Co. Four men are employed in sinking a shaft, which is expected to tap the vein at a depth of about one hundred feet. This is the same mine which produced fabulously rich ore twenty years ago.—Chief.

Northern Spy.
The recent assessment has been fully paid up. Work on the shaft is being rapidly pushed.

From Bingham.
The Brooklyn.
Two hundred and fifty tons of the usual grade ore came in.

South Galena.
There were the usual shipments.

The Highland.
The Highland continues a regular producer.

The Benton.
The Benton was again heard from.

The Nast.
Everything goes to prove that the Nast will be among the most steady producers of the Old Reliable.

Yosemite No. 1.
There was a big shipment again.

Yosemite No. 2.
The regular output came in.

From Frisco.
The Horn Silver.
There was the usual big output.

From Fish Springs.
The Utah.
A very rich shipment came in.

The Emma.
Several tons of good ore came in during the week.

The Emma.
A carload of concentrates came up during the week.

CHANGED HIS MIND.

During our state fair a large fleshy gentleman came into our drug store and was suffering intensely from pain in the stomach, caused by a change of water and diet. He called for ginger and brandy. The latter we could not supply, we therefore recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was relieved by the use of it. He was a large man, and we have a large sale of it, mostly to commercial travelers and to persons who have used it and know what it is. Charles Arnold & Co., Morgan House Drug Store, Des Moines, Iowa.

Just received, 100 dozen, the finest selection of ladies' blouses and Norfolk waists ever shown in this city, at prices to tempt purchasers. Look at goods and prices in our show window.

WISDOM'S VIOLET CREAM
Is the most exquisite preparation in the world for softening and whitening the hands and face. It is not only a substitute for, but in every respect superior to glycerine, cold cream, vasoline, and like preparations. Try it.

Professor Brooks, of John Hopkins University, has published a book on the oyster. It's much to be feared he has not done due justice to his close-mouthed friend of man, unless it's a cook book.

CULLINGS IN COURT

Judge Zane Sits in Chambers on Sundry Cases.

LIBERAL BULLY BROUGHT TO BAY

The Goddards Make Up—Crimes and Casualties—Police, Probate and Other Paragraphs.

Judge Zane sat in chambers yesterday, and disposed of considerable business.

The first important matter to come up was the case of Ezra Thompson et al. vs. David Keith et al., in which is involved the question of the valuable Northland mining property, in Summit county. The defendants, who were represented by Messrs. Dickson, Brown and J. A. Marshall, asked for a modification of the injunction, so that they might work on the disputed ground. The plaintiffs, who were represented by Judge Royle and W. G. Van Horn, met this with a similar request, and the court allowed both parties to go on with the work on filing bonds in the sum of \$50,000 each, and making monthly statements, under oath, as to their work.

The case of Rebecca Regie vs. S. Kellner was dismissed.

A similar order was made in the case of Rebecca Regie vs. R. Q. Kellner.

In the case of Evelyn Lucas et al. vs. F. J. Lucas et al., an order was made in favor of the plaintiff, as prayed.

In the case of S. W. Morrison vs. Louis Du Bois et al., the demurrer was withdrawn and the defendant allowed fifteen days to answer.

In the case of Nichols et al. vs. Dodge et al., an order of dismissal was granted.

In the case of E. Henry vs. Joseph Nesbitt et al., leave was granted to file an amended complaint.

The divorce case of Goddard vs. Goddard was dismissed by consent.

In the case of H. Voelcker vs. B. R. Huber et al., the defendant was allowed thirty days in which to furnish security for costs.

In the divorce case of Katie Blythe vs. Edward Blythe, the defendant failed to appear and a decree of divorce was granted on the ground of desertion.

In the case of Hansen J. Rivers vs. W. D. Barrett, a decree of foreclosure was granted.

In the case of A. Eldredge et al. vs. John Neff, an order of partition was granted.

The case of Eva Piggan vs. Simon G. Piggan then came up on an order requiring the defendant to show cause why he should not be punished for contempt in failing to comply with the order of the court requiring him to pay alimony. At the conclusion of the hearing Piggan was ordered to pay \$75 and costs by August 30.

A LIBERAL RIOTER.

Drum Major Ford Found Guilty of Brutal Assault Upon Motorman Crow.

Chas. F. Ford, the drum major of the Liberal band, who made such a brutal assault upon Motorman Crow, was tried before Commissioner Pratt yesterday. Ogden Hiles and Judge Hoge defending, and J. L. Rawlings prosecuting. Mr. Crow, the victim of the assault, was first called, and he gave the following version of the affair:

I am motorman in the employ of the Salt Lake City Street Railway company; I operate on car 34 of the Twenty-first ward line. On the night of August 3 I was running on Main street. The thoroughfare on either side was lined with people, who were not celebrating the result of the election. My car was running north on one track, as slow as a rattle as it can be run. The "Liberal" drum corps was coming up the west side of the street, a little in advance of the car, followed by a large crowd of people.

When at a point nearly opposite Goldsmith's clothing store the procession turned eastward at a sharp angle and proceeded to cross the street; the car and the "Liberal" band, headed by Mr. Ford, met; prior to this Mr. Ford, an "extra," was standing upon the platform and was ringing the bell violently in order to halt the procession until the car had passed; but instead of slackening their pace Mr. Ford and four others who were in advance of the entire crowd, jumped across the track and thus became separated from the rest of the drum corps. Mr. Ford instantly turned on his heel and sprang upon the platform, saying as he grabbed and applied the brake, "stop that car you G—d—s of a b—."

Mr. Ford, the gong ringer, pushed Mr. Ford of the car and I shut off the current, bringing the car almost to a standstill. Mr. Ford sprang quickly on to the platform again and waving his staff around with as great force as he could

FIRE! SMOKE! WATER!

\$50,000

WORTH OF

Clothing, Gents' Furnishing Goods, Hats, Caps,

From the late fire at 637 Broadway, New York, and must be sold regardless of value, within 30 days.

By Order of the Insurance Company.

NOTE SOME OF OUR STARTERS:

- 1,000 MEN'S SUITS, cost to manufacture \$7.75, were retailed at \$10.00, must go at \$2.50.
- 1,000 MEN'S SUITS, cost to manufacture \$9.75, were retailed at \$14.00, must go at \$3.50.
- 1,000 MEN'S SUITS, cost to manufacture \$11.75, were retailed at \$14.00, must go at \$5.00.
- 100 DOZEN SOFT AND STIFF HATS, cost to manufacture \$1.00, must go at 35c.
- 100 DOZEN SUSPENDERS, cost to manufacture, 50c, must go at 15c.

By Order of the Insurance Company.

First Come, First Served.

No. 13 West First South St., JENNINGS BLOCK, SALT LAKE CITY.

August 10. The Opening Day August 10.

command from the position he occupied, dealt me a blow across the left cheek that for a moment rendered me powerless. Recovering myself as quickly as possible I turned on the current and proceeded to make my regular run, which I was only able to accomplish after the greatest difficulty. I made two and one-half trips after being struck the first time. The abrasion now on my face is the result of the blow I received from Mr. Ford. At 11:30 Mr. Read relieved me from my duties by putting on another motorman. At his request I went down Main street to identify my assailant. I found him near the Cullen hotel. Recognizing me, Mr. Ford said: "What do you want down here?" I replied, "I want to identify the man who was so brave (?) as to strike me while I was in a helpless condition." To this Ford answered: "You are a G—d—s of a b—."

POLICE POINTS.

William Wire, the enterprising burglar who went through several rooms at the Continental a few nights ago and got away with a number of articles belonging to guests, and who was subsequently arrested by the authorities in Ogden, was arraigned in the police court yesterday and pleaded guilty. He was held to await the action of the grand jury, and being unable to furnish bonds, was taken back to jail.

Seven more frail females, who were missed in the recent round up, were assessed \$25 each.

Alfred Roberts, a barber, was fined \$10 for interfering with an officer.

Samuel Allison and John W. Humphries, who were arrested Friday night while stealing peaches in Mr. Chamberlain's orchard, were fined \$5 each.

Commissioner Greenman yesterday afternoon for assaulting Mr. Hapst's wife. He was found guilty and fined \$25, and costs were imposed. Altogether, Eastman's amusement has cost him \$76.

LEGAL NOTICE.

The Romans cried "Vae Victis!" "Woe to the conquered!" at their triumphs. To-day many of us are being conquered—our peace, our rest and daily appetite wrested from us by that invader of the stomach, dyspepsia. Succor we sue for from a hundred sources. Temporary relief we sometimes obtain. But a hearty meal, the simplest indiscretion in diet, and the Protean monster returns with redoubled vigor to torment us. A persistent use of the great anti-dyspeptic and regulating tonic, Hostetter's Stomach Bitters, is the diet, and the Protean monster returns with redoubled vigor to torment us. A persistent use of the great anti-dyspeptic and regulating tonic, Hostetter's Stomach Bitters, is the diet, and the Protean monster returns with redoubled vigor to torment us.
